Dead body Mortuary Export Model-MG-M1-Special

Murickens group An ISO 9001:2015 certified company introduces two registered brand name MG and Flyline with low maintenance, competitive price and with the aim of power saving. In 1990 Murickens Group commenced the production in the field of Electronics, they were keen to develop a MG Dead body Mobile Mortuary which could be of help to the bereaved to preserve the departed for such time, that, the relatives arrive to pay their respect. Now Murickens Group currently has seven types of dead body preserving mobile mortuaries. The main difference between the two is the exterior body materials used in the design, the top opening cover material and its design.

Being the first manufacturer and supplier of mobile mortuary in this field ,with an experience of more than 30-years.We have thousands of satisfied customers in India and different parts of the world.

Our valued and reputed clients list includes The CISF 7th Battalion Military Cam Chennai, Command hospital Chandimandir, St. Ursula hospital Pune, Shanti memorial hospital Cuttack, Dept. of Space Sriharikota, Birla research institute, Malayalee assosation Bhopal..etc. (outside Kerala). **Govt. hospitals** - Aluva, Kottayam, Varkala, Mulanthuruthy, ..etc. **Co-operate Banks** - Marayoor service co-operative bank Idukki, Karukutty service co-operative bank, etc.. (Kerala) Al-Amin medical service Bangladesh, Saudi etc.(exporting)

MG-M1 Special model is very attractive model among the mobile mortuaries that are available in market. The top cover glass is made up of acrylic glass which is attached to an attractively designed Steel frame. This MG dead body freezer model is very compact and is very easy to handle. There is two parts one is head and the other is body part. Head part consists of compressor, condensing coil and electric power supply system. The body part consists of capillary pipes which are made up of copper in order to avoid corrosion and gas leakage which occur while using Al/GI. The top opening is a semi-octagonal acrylic glass design with a 10 mm thickness.

The head part is slightly elevated from the body part. The dimension of body part is suitable for all types of standard body measures. The light fittings inside it help to get a good look. We provide high quality compressor which reduce complaint rates. The body inside it can be seen from different angles and from far away also. It uses Fisher emersion make compressor that operate at very low power. These world-class compressors used in this system give the customer confidence. Many people are forced to put up a stand-by mortuary at all times because of fear that, models using cheap low-end compressors will stop at any moment. So, far-sighted consumers choose models that use a quality compressor which is a little bit expensive. This model is very special among the 7 models of MG mobile mortuaries. **We Murickens Group also promote export of this system to outside Kerala since its top cover is made up of acrylic glass which lowers risk factors during long distance transportations.**

MG-M1 Special Model DEAD BODY FREEZER :

Dimension :Length-228.6 cm (90"), Height-66.04 cm (26"),

Width- 71.12 cmm (28")

Mortuary Inside length -74.5 " (189 cm), Width -22 " (57 cm).

Weight :Bottom section : 65 Kg, Top opening acrylic glass with steel frame: 30Kg, Body lifting steel structure: 7Kg.
